

STAMP CARVING KITS

3 IN 1 LINO CUTTER & STAMP CARVING KITS

This innovative and versatile stamp carving kit allows you to carve your own SoftCut™ Printing Stamps using Lino cutting tools and techniques for a unique result.

Simply pop one of the included printing stamps into the included disc holder, and use the lino cutters and handle to carve your design. The disc holder allows safe and easy manipulation of the printing stamp. Once finished, assemble the Baren by combining the base, lid and handle together. Peel back the protective paper from the printing stamp and apply to the base of the Baren.

Ink can be applied using a roller, or by utilising a traditional ink pad. The base of the Baren also doubles as a storage unit for the cutters keeping them safe after use.

Available with either 5 or 10 different cutters and 2 or 5 printing stamps.

- L5B2D** Kit with 5 cutters and 2 Stamps
- L10B5D** Kit with 10 cutters and 5 Stamps
