

INK ROLLERS / BRAYERS

STANDARD HARD RUBBER ROLLERS

Our sturdy hard rubber roller is perfect for printmaking and a default choice for education and purchasing authorities worldwide. The rigid body and steel brackets give strength to the durable 70 shore EPDM rubber roller enabling heavy use, out-performing natural rubber. Suitable for use with both water based and oil based ink, and also resistant to solvents. The

R8	Standard Lino Roller	300mm

handle is manufactured from durable polypropylene with a hanging slot. The roller has self-lubricating nylon bearings, EPDM rubber surface, aluminium core and a continuous steel shaft. It is designed so that wet rollers

can be turned over with the handle doubling as a stand for cleaner working. These versatile rollers can be used for a variety of purposes other than block printing, including scrapbooking, laminating and even industrial processes like the application of window films and vehicle graphics.

- Double handles on sizes 7 & 8
- Easy-clean polypropylene handle
- Hanging hole
- Built in rest
- Rigid frame.
- Nylon self-lubricating bearings.
